Some simple definitions

Covered Vehicle is a Jaguar/Daimler for which the Jaguar European Emergency Assistance is valid (and which has been kept in a roadworthy condition and serviced in accordance with Jaguar Cars recommendations).

Beneficiary/Beneficiaries are all owners, users or passengers travelling in Europe in the Covered Vehicle at the moment assistance is required.

Continental Europe is defined as: Andorra, Austria, Belgium, Bulgaria, Czech Republic, Denmark, Finland, France, Germany, Gibraltar, Greece, Hungary, Italy, Liechtenstein, Lithuania, Luxembourg, Monaco, Netherlands, Norway, Poland, Portugal (but not Madeira), Republic of Ireland, Romania, San Marino, Slovakia, Slovenia, Spain (including the Balearic Islands but excluding the Canaries), Sweden, Switzerland, Turkey (European part) and Vatican City.

Benefits as described in this booklet will only apply if the Jaguar European Emergency Assistance arranges the Roadside Recovery or Home Assistance.

Your assistance benefits in Europe

Roadside recovery

In the event of immobilisation the Jaguar European Emergency Assistance will organise and pay the costs of taking the Covered Vehicle to the nearest Jaguar Dealer capable of repairing the vehicle should roadside assistance prove unsuccessful.

Car hire

If despite Roadside or Home Assistance the vehicle cannot be repaired the same day the Jaguar European Emergency Assistance will contribute towards the cost of a temporary replacement vehicle up to the equivalent cost of a four day hire of an executive class vehicle during the time the Covered Vehicle remains immobilised. The Beneficiary must satisfy the requirements of the vehicle hiring company (age, valid and clean licence, fuel deposit, credit card details).

Vehicle recovery

In the event of vehicle immobilisation where the Covered Vehicle cannot be repaired within four working days the Jaguar European Emergency Assistance will repatriate the vehicle to the Jaguar Dealer nearest to the Beneficiary's home address or planned destination.

In other circumstances when the Covered Vehicle cannot be repaired the same day, the Jaguar European Emergency Assistance will supply a first class rail ticket or scheduled air ticket to permit the Beneficiary or a person designated by him/her to collect the vehicle. If the Beneficiary requests it the Jaguar European Emergency Assistance will arrange for the vehicle to be returned. The maximum payable for the vehicle's return is equivalent to that of a first class rail or scheduled air ticket.

Get you home/hotel accommodation

Should the Covered Vehicle not be repaired the same day the Jaguar European Emergency Assistance will organise and pay the following:

- a. First class rail transport or scheduled air transport to enable the Beneficiaries to return to their homes in the United Kingdom or to continue their original journey.
- b. A contribution towards hotel accommodation, up to the equivalent of a four star hotel, for up to seven nights from the first day of immobilisation. This only applies if the Beneficiaries have to prolong their stay because of such immobilisation.

Parts delivery

In the event that the Jaguar European Emergency Assistance has taken the Covered Vehicle to a dealer for repairs and parts essential to the running of the vehicle are not available locally, the Jaguar European Emergency Assistance will organise and pay for the despatch of such parts to the repairing dealer.

European customs duty

If following immobilisation of the Covered Vehicle abroad it is found that the vehicle is uneconomical to repair, the Jaguar European Emergency Assistance will pay any customs duty incurred as a result of the Covered Vehicle being abandoned.

Additional car hire

If the Covered Vehicle is not returned to the United Kingdom following immobilisation on the date indicated by the Jaguar European Emergency Assistance, a temporary replacement vehicle up to the equivalent of a two day hire of an executive class vehicle will be organised and paid for by the Jaguar European Emergency Assistance.

8 The Jaguar warranty

Warranty benefits

The Jaguar Warranty is a comprehensive package of benefits designed to meet a high standard of aftersales care and support.

The following pages give full details of the Warranty. Please read these carefully in order to ensure that you obtain the full value of the benefits available.

For quick reference, a synopsis of the Warranty periods of cover is shown below:

Vehicle warranty (page 10)

3 years or 60,000 miles, whichever is the sooner.

Paint surface warranty (page 15)

3 years, unlimited mileage.

Corrosion (perforation) warranty (page 15)

6 years, unlimited mileage.

Service items warranty (page 11)

1 year or 10,000 miles, whichever is the sooner.

All Warranty benefits commence on the day that the vehicle is handed over to the first owner (where the vehicle is operated by the Jaguar Dealer, cover will commence on the date that the vehicle is put into service).

The Warranty Statements made on the following pages are additional to, and are not intended to affect, your statutory rights.

How to obtain warranty assistance

Should your vehicle require attention under the Warranty arrangements, you should:

- Take your vehicle to a Jaguar Dealer (preferably from whom it was purchased).
- Always provide your Jaguar Dealer with full information about the nature of any difficulty as quickly as possible.
- Always present the Jaguar Dealer with this book which will provide him with the information he needs before he can undertake a repair.

Warranty benefits commence on the date shown in the 'Vehicle Identification' section, on page 1, under 'Date of handover'.

In the event of page 1 of this booklet being incomplete, Warranty assistance may be refused by the repairing dealer until the dealer has received confirmation from Jaguar Cars Limited that the vehicle in question is covered by the terms of the Jaguar Warranty.

How to obtain warranty assistance (continued)

Your Jaguar Dealer will arrange an appointment so that you avoid having to be without the vehicle for longer than necessary.

If circumstances arise which make it impossible for you to return your vehicle for warranty or repair work to the original Jaguar Dealer from whom you bought it, you can get the work done at any other Jaguar Dealer.

Transfer of warranty

Warranty benefits will continue to apply, regardless of any change of ownership.

Refer to page 19 for further information on Change of Ownership.

Touring

Jaguar Cars Limited have a comprehensive service network in most parts of the world, and your local Jaguar Dealer will be able to obtain or provide information about the service network in other countries.

Should you require Warranty Assistance when travelling in any other country, take your vehicle to a Jaguar Dealer and point out the procedure shown on page 12. For convenience, the procedure is printed in several languages on pages 12 to 14.

The Jaguar Dealer will normally undertake required repairs free of charge. However, you may be required to pay (unless page 1 in this booklet is completed in full), in which event you should retain any invoices, and, where possible, displaced parts so that your Dealer can resolve the matter on your return home and you can obtain any reimbursement to which you are entitled.

Owner's responsibilities – paint surface warranty and corrosion (perforation) warranty

These warranties do not cover paintwork damage or corrosion perforation caused by or arising from the following:

In the event of the vehicle requiring body repairs due to accident damage, your Jaguar Dealer can ensure that the repairs are carried out by a Jaguar Centre of Excellence, using only Jaguar approved parts, materials and repair techniques. This will ensure that warranty cover will continue on the repaired body sections for the remaining period of the corrosion (perforation) warranty.

In addition to the 'Vehicle Warranty', which covers parts supplied as original equipment when the vehicle was purchased, there is a separate 'Jaguar Parts Warranty' for Genuine Jaguar parts and accessories purchased by the customer from a Jaguar Dealer.

All genuine Jaguar parts are covered by this warranty and have been tested and approved by Jaguar for use on Jaguar and Daimler vehicles.

Note: Genuine JAGUAR Parts and Accessories have been specifically designed to help maintain JAGUAR vehicles to comply with JAGUAR's safety and reliability standards. We therefore recommend you to use only genuine JAGUAR Parts and Accessories for your vehicle. Please be advised that "Non-genuine JAGUAR Parts and Accessories" have neither been tested nor approved by JAGUAR, and that, in spite of constant observation of the market, JAGUAR cannot evaluate their suitability and safety neither isolated nor when fitted to our cars. Any consequential damage caused by the fitment of "Non-genuine JAGUAR Parts and Accessories" is not covered by the warranty.

Vehicle options

A section of the Code of Practice agreed between all motor manufacturers and the United Kingdom Ministry of Transport requires that all safety defects which may occur in design features or construction and are subject to a campaign recall for rectification, must be notified to the owners of the affected vehicles, together with information on the action the owner must take.

Jaguar Cars not only adhere rigidly to the requirements of the code but, in addition we offer you a unique information service so that you or the owner of any vehicle manufactured by us since January 1983 can find out quickly if his or her vehicle has ever been subject to recall action, and if so, whether the defect has been rectified and by whom, or what action to take in the unlikely event that the defect has not been rectified.

All you need to do is to contact your Jaguar Dealer and give details of the vehicle as detailed on the VEHICLE IDENTITY page.

Your Dealer will record details of any work carried out on your vehicle under a Service or Recall Campaign on this page.

Maintenance

Regular maintenance by a franchised Jaguar Dealer, together with the exclusive use of Jaguar parts, is the key to economy, safety and reliability for your vehicle.

Some simple checks/adjustments, which you or any filling station can perform, are required weekly or before a long journey. These include attention to the following items:

- Engine oil level.
- Brake reservoir fluid level.
- Power assisted steering reservoir fluid level.
- Coolant level.
- Battery levels.
- Windscreen washer reservoir.
- Tyre pressures, including spare tyre.
- Operation of all lights and warning systems.

Tyres

It is important for your safety that you always use the correct type of tyre and maintain your tyre pressures in accordance with the recommendations given in the Driver's Literature Pack.

Check your tyres at frequent intervals for general condition, pressure and uneven wear, especially if fast motoring is anticipated.

Hydraulic brake systems

In addition to the recommended inspection of all brake components, it is advisable as a precaution against the effects of wear and deterioration, to make a more searching inspection and renew parts as necessary.

Brake fluid should be changed completely every two years. Only use the recommended brake fluid.

The work detailed for the brake system requires a great deal of skill and should be entrusted to your Jaguar Dealer.

Service intervals

Maintenance must be carried out at 10,000 miles or 12-monthly intervals from the date that the vehicle is handed over to the first Owner, whichever comes first.

It may be necessary for you to give your Jaguar Dealer adequate notice when ordering a maintenance service so that the prescribed intervals are not exceeded.

Ensure that the Jaguar Dealer dates and signs the scheduled maintenance record which can be found on pages 23 to 26.

Severe driving conditions

When vehicles are used under severe driving conditions maintenance must be carried out at 6-monthly intervals.

Severe driving conditions include:

- Driving in dusty conditions.
- Driving on unmetalled road surfaces.
- Driving in countries with high ambient temperatures.
- Driving in severe cold weather.
- Driving in areas using road salt or other corrosive materials.
